

## **SIA Solutions, LLC Receives 2018 EBJ Business Achievement Award Environmental Business Journal Recognizes Firms for Growth and Innovation**

**San Diego, Calif. (February 2019)** —Environmental Business Journal®\* (EBJ), a business research publication which provides high value strategic business intelligence to the environmental industry\*, has honored SIA Solutions, LLC for a Social Contribution Award in 2018.

“In what is widely regarded as a stable market, a number of companies exceeded the norms of low single-digit growth with double-digit growth or ambitious ventures into new practice areas or technology development,” said Grant Ferrier, president of Environmental Business International Inc. (EBI, Inc.), publisher of Environmental Business Journal.

SIA Solutions, LLC was recognized for **Social Contribution in Government Partnering** for advocating the adoption of Intergovernmental Support Agreements (IGSAs) that allow installations to partner with State or local governments on common facilities. As the Department of Defense (DoD) continues to adjust to uncertain budget priorities and funding shortages, military installations are looking for ways to reduce costs while retaining and enhancing capabilities critical to their missions. IGSAs allow partnerships on grounds keeping, refuse collection, animal control, and bulk supply purchase agreements. The resulting cost savings and efficiencies are now encouraging military and civic leaders to pursue broader partnership initiatives that can have far-reaching positive impacts on the environment, including natural resource management, ecological monitoring, environmental stewardship, and energy and water conservation and resiliency projects.

The 2018 EBJ awards will be presented at a special ceremony at the Environmental Industry Summit XVII in San Diego, Calif. on March 20, 2019. The Environmental Industry Summit is an annual three-day executive retreat hosted by EBI, Inc.

*\* Environmental Business Journal provides strategic information and market forecasts for executives involved in 14 business segments, including environmental remediation, water & wastewater, air pollution control, environmental consulting & engineering, hazardous waste, instrumentation, pollution control equipment, waste management, resource recovery, and solid waste management.*

###

**About SIA Solutions, LLC:** SIA Solutions LLC (SIA) is a professional services engineering and consulting firm specializing in program and project specific solutions in Environmental Consulting, Engineering, Remediation, Radiological Services, Infrastructure Asset Management, Public-Private (P3) and Public-Public/Private-Private (P4) partnerships (P3/P4), Energy, and Water Resources.
